Murakami Corporation

(Code: 7292 Second Section of the Tokyo Stock Exchange)

Notice of Expansion and Operation of Photovoltaic Power Generation Facilities

As part of its environmental initiatives, Murakami Corporation (Head Office: 11-5, Tenma-cho, Aoi-ku, Shizuoka-city, Shizuoka; President: Taro Murakami) has installed additional solar PV panels on the rooftop of its Tsuiji Plant (550-1, Tsuijikami, Fujieda-city) with the aim of reducing CO₂ emissions and which started operation on February 1, 2022.

With this expansion an additional 1,936 solar PV panels have been installed on the entire roof of the Tsuiji Plant, and together with the existing PV panels, will have a total power generation capacity of 826kW.

An annual power generation capacity of approximately 818MWh, 10.8% of the electricity used at the Tsuiji Plant will be generated from renewable energy, resulting in an expected annual CO₂ reduction of approximately 355 tons.

We will continue our efforts to expand the use of renewable energy and other initiatives that are friendly to the global environment.
